Subject: Building Update

The move of Legal Department employees to the Franchise Tax Board building is almost complete. Computers are now up and running and phones are connected. Employee workstations are expected to be fully operational Friday, October 12.

The 450 N Street Building investigation continues under the direction of medical, industrial hygienist and building engineering consultants. The medical consultant retained by BOE is Dr. Stephen Munday, M.D., M.P.H, M.S., from San Diego. He specializes in Toxicology, Occupational Medicine, Environmental Medicine, Preventative Medicine, Public Health and Travel Medicine.

Vital files will be inspected by industrial hygienists under protocols established by the consultants. They are expected to be delivered to FTB by Monday.

Air sample testing continues with five floors being tested each week.
